

CERAMIC TILE • NATURAL STONE

Tile Estimate Worksheet:

CUSTOMER NAME: _____ DATE: _____

ADDRESS: _____

CITY: _____ STATE: _____ ZIP: _____

DAYTIME PH: _____ MOBILE PH: _____ FAX PH: _____

EMAIL: _____

To determine the SF of tile needed for your project, please multiple the Length x Width of your room. Add 10% extra for square or multi size patterns, and 15% extra for diagonal patterns.

If you need help figuring the amount of product needed for your project, please fax or email a drawing of your room along with this worksheet to one of our branches.

For example: Measurement in Feet: 8' W x 6' L = 48 SF, Measurement in Inches: 96" W x 72" L = 6912/144 = 48 SF
